

Autism Explorers Sessions – Parent/Guardian Disclosure

Parent/Guardian Responsibility:

Parents and guardians are welcome to enjoy the on-site amenities or visit nearby shops while their child participates in Autism Explorers sessions. However, they must remain reachable by phone and within a reasonable distance at all times in case of an emergency. By enrolling their child, parents and guardians acknowledge and accept that while Autism Explorers staff provide supervision within the designated session area, overall responsibility for the child's accessibility and well-being remains with the parent or guardian should they choose to leave the immediate premises.

Safety Instructions:

All participants, parents, and guardians are expected to read and adhere to all safety guidelines provided prior to the use of any equipment or facilities on premises. Staff members are available to assist if clarification or support is required.

Use of Equipment:

Participants and their families are responsible for using all equipment and facilities in accordance with staff instructions. Any misuse that results in damage may result in the parent or guardian being held responsible for associated repair or replacement costs.

Behaviour Expectations:

All guests are expected to conduct themselves respectfully towards staff, fellow participants, equipment, and facilities at all times while on premises.
